

Logan County COVID-19 Update, September 6, 2022

Logan County’s COVID-19 Community Level was downgraded to ‘Low’ this week. As a reminder, the COVID-19 Community Level is based on three factors:

- Total new COVID-19 cases per 100,000 population in the past seven days
- New COVID-19 admissions per 100,000 population in the past seven days
- Percent of staffed inpatient beds occupied by COVID-19 patients

The table below shows how Logan County is doing compared to the metrics created by CDC:

Metric name	CDC baseline	Logan County data as of 9/6/2022
<b>New COVID-19 cases per 100,000 population last seven (7) days</b>	<200	175.2 Decreased from last week
<b>New COVID-19 admissions per 100,000 population last seven (7) days</b>	<10.0	2.2 Decreased from last week
<b>Percent of staffed inpatient beds occupied by COVID-19 patients last seven (7) days</b>	<10.0%	7.6% Decreased from last week

Logan County’s COVID-19 Community Level was downgraded to ‘Low’ this week. The COVID-19 case rate was decreased compared to last week and remains under the baseline of 200, and the COVID-19 hospitalization data also decreased. If you identify any clusters of COVID-19 cases, we recommend you take measures to prevent any further spread. The Logan County Health District strongly recommends everyone to be vigilant in their prevention efforts. If you or a loved one is sick, stay home. Maintain good indoor air quality. Follow isolation and quarantine guidelines when they apply to you and your

family. Have a supply of COVID-19 tests available in your home in case anyone gets ill. Get yourself and your family fully vaccinated against COVID-19.

The Logan County Health District has COVID-19 vaccinations available for all eligible age groups (including first doses and any additional or booster doses). There are incentives available for anyone who has yet to receive their first dose.
