

Logan County COVID-19 Update, November 29, 2022

Logan County’s COVID-19 Community Level increased to ‘High’ this week. As a reminder, the COVID-19 Community Level is based on three factors:

- Total new COVID-19 cases per 100,000 population in the past seven days
- New COVID-19 admissions per 100,000 population in the past seven days
- Percent of staffed inpatient beds occupied by COVID-19 patients

The table below shows how Logan County is doing compared to the metrics created by CDC:

Metric name	CDC baseline	Logan County data as of 11/29/2022
New COVID-19 cases per 100,000 population last seven (7) days	<200	225.5 Increased from last week
New COVID-19 admissions per 100,000 population last seven (7) days	<10.0	8.8 Increased from last week
Percent of staffed inpatient beds occupied by COVID-19 patients last seven (7) days	<10.0%	11.4% Increased from last week

Logan County’s COVID-19 Community Level increased to ‘High’ this week. The COVID-19 case rate more than doubled compared to last week and is above the baseline of 200, the COVID-19 hospitalization data increased and the percent of staffed inpatient beds occupied by COVID-19 patients increased and is now above the CDC threshold of 10.0%.

If you identify any clusters of COVID-19 cases, we recommend you take measures to prevent any further spread. The Logan County Health District strongly recommends everyone to be vigilant in their prevention efforts. If you or a loved one is sick, stay home. Maintain good indoor air quality. Follow isolation and quarantine guidelines when they apply to you and your family. Have a supply of COVID-19 tests available in your home in case anyone gets ill. Get yourself and your family fully vaccinated against COVID-19.

The Logan County Health District has COVID-19 vaccinations available for all eligible age groups, including those that have yet to get their first COVID-19 vaccination. It's never too late to get the vaccine.
