

Logan County COVID-19 Update, December 06, 2022

Logan County’s COVID-19 Community Level decreased to ‘Low’ this week. This week’s Community Level should be interpreted with caution due to the fact Ohio did not report case rates to CDC which may cause Community Levels to be underestimated. As a reminder, the COVID-19 Community Level is based on three factors:

- Total new COVID-19 cases per 100,000 population in the past seven days
- New COVID-19 admissions per 100,000 population in the past seven days
- Percent of staffed inpatient beds occupied by COVID-19 patients

The table below shows how Logan County is doing compared to the metrics created by CDC:

Metric name	CDC baseline	Logan County data as of 11/29/2022
<b>New COVID-19 cases per 100,000 population last seven (7) days</b>	<200	n/a Not available
<b>New COVID-19 admissions per 100,000 population last seven (7) days</b>	<10.0	8.8 Remained same as last week
<b>Percent of staffed inpatient beds occupied by COVID-19 patients last seven (7) days</b>	<10.0%	9.5% Decreased from last week

Logan County’s COVID-19 Community Level decreased to ‘Low’ this week. The COVID-19 case rate is not available this week, the COVID-19 hospitalization data remained the same and the percent of staffed inpatient beds occupied by COVID-19 patients decreased and is now below the CDC threshold of 10.0%.

If you identify any clusters of COVID-19 cases, we recommend you take measures to prevent any further spread. The Logan County Health District strongly recommends everyone to be vigilant in their prevention efforts. If you or a loved one is sick, stay home. Maintain good indoor air quality. Follow isolation and quarantine guidelines when they apply to you and your family. Have a supply of COVID-19 tests available in your home in case anyone gets ill. Get yourself and your family fully vaccinated against COVID-19.

The Logan County Health District has COVID-19 vaccinations available for all eligible age groups, including those that have yet to get their first COVID-19 vaccination. It's never too late to get the vaccine.
